THE CURB MARKET.

Long Island. 26

Prices mostly ruled firm in the curb market to-day, and while no great degree of actifity developed in any quarter the market was broader and on the whole exhibited a better tone than it has for several days past. A further rise in Nipissing mines following yesterday's sudden upward spurt exoited a good deal of attention. The quotation for the stock rose to-day to 7% on sales of some 7,000 shares. The copper shares showed some inclination to rally, Butte selling at 20, and there were again extensive dealings in the Goldfield group' at improving prices. Some 70 shares of Standard Oil changed hands between 486 and 490. Transactions in detail in the market to-day were as follows:

MONEY AND EXCHANGE.

Money on call on the floor of the Stock Ex-Money on call on the floor of the Stock Exchange to-day loaned at 1% and 2 per cent, and closed at 1% per cent. The average price paid was 2 per cent, comparing with a similar figure yesterday. The time money market was dull and narrow. Lenders showed little disposition to put out funds and the demand was also very light. Rates were unchanged at 3% 64 per cent, for sixty and ninety days, 4% per cent for four months, 4% per cent, for five and six months and 565% per cent, for twelve months. Mercantile paper was quoted at 5% 66 per cent, for prime single names and indorsed bills receivable; other names, 666% per cent. names, 6/261/2 per cent

names, 8408% per cent.

The sterling exchange market again weakened to-day, the price of demand falling 15 points further to 4.8635. The recent weakness of the market has been due apparently to offerings of commercial bills. Rates closed at 4.835044.8635 for sixty days, 4.863544.8640 for demand bills and 4.865544.8670 for cables. Francs were quoted at 5.20 less 1-32 and 5.17% less 1-34; reichsmarks, 94 3-16 and 95 1-16 less 1-32; guilders, 40 3-16 plus 1-64.

Prices irregular-Wheat Shows Effects of

Realizing-Cables Bearish-Argentine Shipments Large-Corn Grading Poor. Wheat closed easier mainly on bearish cables and Argentine news and liquidation It was a nervous, irregular market through out the session. The changes in prices were frequent even if the swing of quotations wa not very wide. The opening was somewhat easier owing to bearish cables and larget Argentine shipments. But prices soon moved upward under the etimulus of small receipt and reports of an active cash demand and decreasing stocks. Some prominent inter ests gave support and shorts covered. Bartlett, Love, Logan, Chapin and the Northern Crain Company were reported to have bought. The Northwest sent buying orders. The offerings were rather light.

The Northwestern receipts were about 240 cars smaller than on the same day last year. Minneapolis reported a decrease in the stock demand was reported at various points and farm deliveries were smaller.

But again long wheat was thrown on the market in considerable volume and later or prices weakened, especially as the demand to cover relaxed. Armour was supposed to have sold to a considerable extent at every opportunity. Barrell, Pringle, Daggett, Canby and Brosseau were reported to have The Argentine shipments were larger than

expected, amounting to 6,216,000 bush., ac cording to the total figures, against 6,024,000 in the previous week and 4,600,000 last year. and since January 1 that country has shipped 43,412,000 bush., against 26,768,000 in the

and since January 1 that country has shipped 43,412,000 bush., against 26,768,000 in the same time last year. The Argentine visible increased for the week 1,120,000 bush.

Bears were encouraged too by an Jargentine crop estimate of 202,400,000 bush., with an exportable surplus of 154,000,000 bush., and the exports 102,700,000 bush.

A lessened cash demand was reported at some points. The stock at Duluth increased 125,000 bush. for the week. Liverpool declined equal to % to 1%c., influenced by a lack of support, large Argentine shipments and the fact that large arrivals are due from Argentine. Budapest declined equal to 4 to 4%c. on favorable weather in Hungary. Herlin dropped equal to 1 to 1%c.

The Modern Miller's weekly report was favorable in the main, stating: "Special reports in regard to winter wheat at the close of the winter indicate that the general condition is favorable. Top growth in a number of States is small, but the plant generally is well rooted and in a healthy condition. The only injury reported is in early sown wheat. Hessian fly is prevalent in Missouri and Kansas, but the crop requires growing weather to reveal actual conditions. The acreage is small in Texas, Tennessee, Michigan and Ohio. The most promising conditions are reported from Kansas, Nebraska, Illinois, indiana, Texas and Oklahoms."

Before the close, however, there was enough covering and new buying to cause a rally, especially as a better export demand was reported. The trading, however, was in the main narrow and professional. The average operator is disposed to trade for quick turns pending further developments. Some do not expect any marked change until after the announcement of the Government report on March 10. Watter Munn thinks Minneapolis is getting into the strongest position in has been in for twelvey years past and expects to see May there sell 25 cents over Chicago July.

THE CORN SITUATION.

Liverpool was %c. lower to %c. higher. Good rains were reported in Argentina, and crop prospects there are favorable. The shipments from that country for the week were 42,000 bush., against 170,000 in the previous week and 200,000 last year; since January 1, 2,396,000 bush., against 5,694,000 in the same time last year. Bartlett, Frazier & Carrington think that limited receipts and a good demand point to higher prices.

THE OATS PEATURES. Oats were stronger for a time with corn and also because of a somewhat better demand, especially for September. Later on, however, prices reacted on liquidation. The Argentine crop was estimated at 32,000,000 birsh. Chicago received 251 cars, including 9 of contract grade, and expects 303 to-day.

THE COTTON MARKET.

Prices Close Lower-Reported Lancashire to Go on Short Time-Long Liquida.

tion-Speculation Dull. At the last minute just before the gong sounded somebody on the other side cabled that the Federation of Spinners of Lancashire had decided to adopt short time. Selling and a decline at once sent prices downward Taking the day as a whole it was not, how ver, a thrilling affair. With small speculation and small desire on the part of the gen erality of people to do more than watch events the market was almost spellbound much of Room traders sold, for they do not believe in the possibility of a bull market. Their lack of faith has proved at times of late somewhat costly, but it appears that though this unbelief comes high they must have it.

Yesterday they were more or less encouraged by unexpected weakness in Liverpool ome Liverpool selling and not a little general liquidation, to say nothing of the Washington news about anti-future legislation, the dull-ness of trade and the paralysis of speculation. Nothing seemed to hearten up the market-neither the firm spot prices, the spot sales in Liverpool of 10,000 bales, the bullish statistics or bull support. What will be the next move? That is what

spectators are awaiting. Leading shorts do not cover and leading bulls are apparently biding their time. Which will get tired first? It seems to resolve itself into a question of mere endurance. Meantime March and May and the spot quotations at home and abroad constitute the backbone of the market. out these factors it would seem that its backbone would be gelatinous indeed. Just on the stroke of 3 hiverpool bears seem to have played a winning card in their cabled reports of Lancashire curtailment. It was said, too that some well known bulls here sold. was merely a suspicion. But of one thing there can be no doubt, the public is more inolined than ever to scout the idea of a genuine bull movement being started at this time.

announcement of the Government report on March 10. Waiter Munn thinks Minneapolis is getting into the strongest position it has been in for twelve years past and expects to see May there sell 25 cents over Chicago July.

THE CORN SITUATION.

Corn advanced on bad weather, poor grading, bull support and covering of shorts. Patten interests were supposed to have bought, though not on a very large scale. They are supposed to be taking advantage of every opportunity to take profits but to be not selling sufficiently to loosen this hold on the market. Shorts showed considerable nervousness, at times. There was scattered buying by commission houses.

Chicago got only 1 car of contract grade out of total arrivals of 379 cars. The receipts there to-day were estimated at 398 cars. Prices look too high, but no one cares to sell short with receipts small and stocks of contract corn light.

Liverpool was %c. lower to %c, higher, Good rains were reported to have bought early and sold later. Reported to have bought and sold later. Reported to have bought and sold later. Reported to have been measure and sold later. Reported sellers were measure and sold later. Reported to have bought. Miller & Co., Moyse, Violett, Schill, Craig and McIntyre; buyers, Messrs. Shearson, Wilson, Ray, Wenman, Hubbard and Dick. Norden & Co. think that the whatever the size of the crop the spinning world has evidently made up its mind that there will be enough cotton to go around and that sooner or later it will be for sale. Marshall, Spader & Co. think that the local speculative situation appears to be made up of two parties discussing from two points of view the technical strength or weakness of the market for options rather than the causes which might influence a distinct change in trade or other conditions.

Spot cotton declined to points. Middling, 11.45c. The Southern spot markets were unchanged to %c. lower. Galveston, 11%c. New Orleans, 11%c. Savannah, 11 1-16c.; Augusta, 11%c. Savannah, 11 1-16c.; Augusta, 11%c. Price interests were reported to have bought early and sold later. Reported sellers were

MISCELLANEOUS MARKETS. Coffee and Provisions Rise.

A small advance took place in coffee. There was less disposition to sell partly because the foreign markets were better than expected and partly because less was heard of financial troubles in Brazil. It seems that the hank suspension was far less important than many had imagined on Thursday. Local dealers continued to give support and there was a certain amount of covering. The short interest is supposed to be rather extensive.

The trading, however, continues dull.

Spot coffee quiet. Rio No. 7, 8%c. Futures closed 5 points higher and quiet. Sales, 11,500 bags. Havre declined 1/4, but recovered it. Hamburg unchanged to 1/4 pfg. lower.
